OBJECTIVE

As a final-year BTech IT student with expertise in frontend development (HTML, CSS, JavaScript, React.js) and foundational backend knowledge (Node.js, Express, MongoDB), I aim to leverage my technical skills and passion for web development in an internship opportunity. I am eager to contribute to real world projects and collaborate with a dynamic team to create user-friendly, responsive websites and applications.

PROJECTS

Student Info Portal

Feb 2025

- A web application built using the MERN stack to manage and store student-related data efficiently. The system allows users to easily store, retrieve, update, and delete student information.
- Project url: <https://student-portal-frontend-alpha.vercel.app>

Zara

Dec 2024

- A front-end project is designed to create a user-friendly, visually appealing, and responsive music streaming platform. The platform features a clean, modern interface that showcases album art, and trending music.
- Project url: <https://zara-62.vercel.app>

Happy Trip Industry

Nov 2024

- Developed a modern, user-friendly front-end for a travel agency website to enhance customer engagement and streamline trip planning.
- Project url: <https://peppy-scone-cde9f3.netlify.app>

D TOOL

Oct 2024

- This website will be a multifunctional web application providing users with a suite of tools, including a currency converter, BMI calculator, image to PDF converter, QR code generator, and strong password generator.
- Project url: <https://resplendent-bunny-3b3322.netlify.app>

SKILLS

- Web Development: HTML,CSS,Java Script,React Js,Tailwind CSS,Bootstrap,Sass,Node js,Express JS
- Programming Language: Python
- Graphic Design: Adobe Photoshop
- Database: MySQL,MongoDB

CERTIFICATION

Certified in Python Programming by Strydo Technologies PVT. LTD, Demonstrating proficiency and commitment to ongoing skill enhancement.

July 2023

EDUCATION

Global Institute of Engineering & Teachnology
B.Tech in Information Technology
